INTRODUCTION

Dear colleagues,
The Third International Conference on Pediatric and Neonatal Non-invasive Ventilation will be held again in Barcelona, Spain.

This meeting intends to be a complementary event to the Biennial European Conference on Pediatric and Neonatal Ventilation organized by Dr. Rimensberger in Switzerland.

This Conference, focused on NIV, will be offering the latest advances to young pediatricians, neonatologists, pediatric intensivists, pediatric pulmonologists, and pediatric and neonatal intensive care nurses/respiratory therapists. It is a multidisplinary forum where everyone will learn from the lectures of well-known experts in this field.

In addition, true to our commitment to education, we will also offer a series of pre-congress workshops that will focus on very practical bedside issues. We are inviting you to participate and to make this Third Conference on Pediatric and Neonatal Non-invasive Ventilation a high standard event and a great success. We are looking forward to seeing you in Barcelona in 2017!

Martí Pons-Òdena, Alberto Medina
Congress Chair
