

PHILIPS

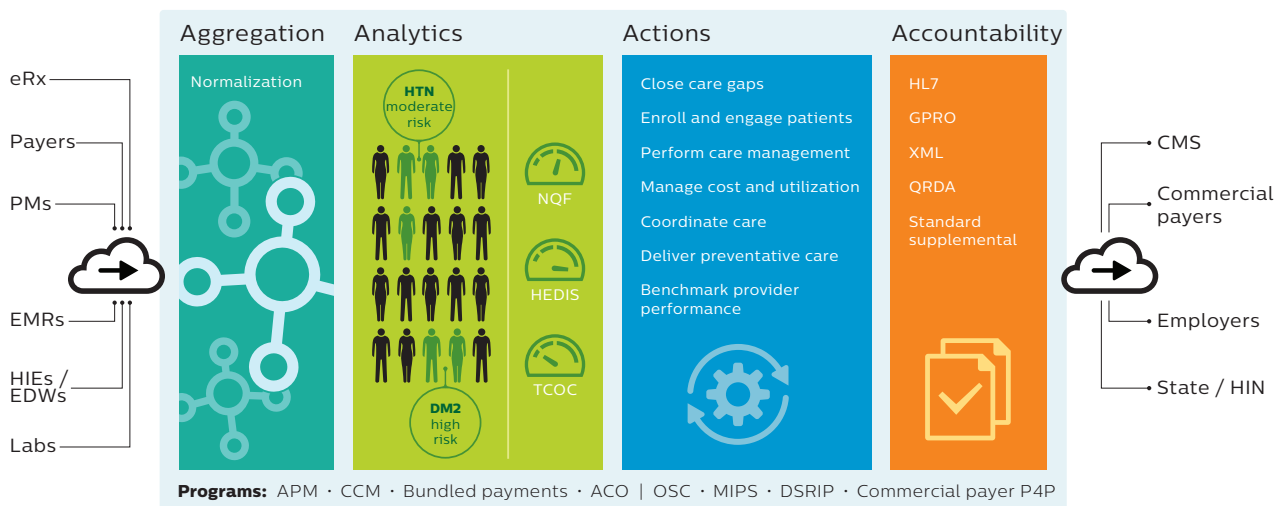

wellcentive

Simplifying your transition to value-based care

Since 2005, we have driven quality improvement, revenue growth, and business transformation for providers, health systems, employers, and payers transitioning to value-based care.

Recognized as an industry leader for delivering immediate and tangible results, we offer analytics that simplify complex data from all points of care, advancing comprehensive care management and payer collaboration.

The Philips Wellcentive platform leads the way for you

Committed to continuous health

We work across the health continuum for true innovation in population health management.
